Beauty Wisdom

1 What supplements can I take for healthy hair, skin, and overall wellness?

Evening Primrose Oil – Helpful in managing symptoms of psoriasis, eczema and dry skin.

Collagen – Help to provide skin with the strength, smoothness and elasticity.

Multivitamins – Contains essential micronutrients (such as calcium, iron, folic acid, vitamin B5, vitamin B12, magnesium, vitamin C, vitamin D, vitamin E, and zinc) that your body needs.

Bird's Nest – A traditional remedy, rich in protein, amino acid and minerals (sodium, calcium, magnesium, potassium) to help support the immune system.

2 Tips to keep skin hydrated:

- Limit showers to no more than 15 minutes using lukewarm water.
- Use soap-free gentle skin cleansers or lipids cleansers like emulsifying ointment, aqueous creams or bath oils.
- Applying moisturiser immediately after a shower helps to lock in moisture.
- And, remember to drink plenty of water.

3 Tips to help prevent hair loss:

- Have a balanced and healthy diet.
- Avoid tight hairstyles like braids or ponytails.
- Treat your hair gently when washing and combing.
- Avoid harsh hair treatments like curling irons and straighteners.
- Use shampoo and conditioner that is formulated for your hair type.
